Profile Summary

I am currently a second-year Computer Science Engineering student with a strong passion for web development and continuous learning. I am also learning about AIs and how to train AIs using TensorFlow and Pytorch. Although I have no formal work experience, I have undertaken several projects that showcase my skills and dedication.

Projects

Grit-India

Next.js, Node.js

A World for Indian Culture and its rich Heritage

Github

- **Description:** Developed using the Next.js framework with a modern UI to engage users in learning about Indian culture and heritage.
- **Technologies Used:** Next.js, React.js, Typescript, Javascript, CSS

HealthAssist

React.js

A Web Application for HealthCare services

Github

- **Description:** Created a comprehensive medical website using the MERN stack. The platform focuses on queuing models for OPDs, booking appointments, and checking bed availability.
- **Technologies Used:** MongoDB, Express.js, React.js, Node.js, Javascript, Typescript, HTML, CSS

Technical Skills

Learning

Data Structures, Algorithms

Programming Languages

C/C++, Javascript, JAVA, Python

Libraries/Frameworks

React.js, Express.js, Next.js, Typescript, Git, Node.js, Django, HTML5, CSS3

Database

MongoDB, PostgreSQL

Platforms

Vercel, Heroku, Koyeb

Soft Skills

- **Problem-Solving:** Experienced at identifying issues and developing effective solutions, particularly in web development projects.
- **Team Collaboration:** Experienced in working collaboratively on projects, ensuring smooth communication and cooperation among team members.
- **Adaptability:** Quick to learn new technologies and adapt to changing project requirements.
- **Time Management:** Skilled at managing time effectively to balance academic responsibilities and project deadlines.
- **Communication:** Strong verbal and written communication skills, essential for explaining technical concepts and collaborating with peers.

Education

- **Studying At Vivekananda Global University**
- **Currently in 2nd-year of Computer Science Engineering**

Jaipur, India
